QR Code Link to This Post My wife and I are currently stranded in Sheridan. We made the trip from Oregon with plans to move east to Wisconsin with family, they changed their minds at last minute. We are now stranded with no money and no place to go. We are both 28 very easy going and very clean and tidy. We are looking to start over someplace friendly where opportunity is. We are both young, healthy, and able to work. We just need a little help getting on our feet. We don't have any money, but are willing to sell our car. A 2008 Lexus IS 250. If you are willing to work with us we would greatly appreciate it... Thanks and happy!
