QR Code Link to This Post The starter kit is a more affordable entry solar power system for homeowners. Starting at \$6000 we install 10 panels with microinverters and all the wiring and infrastructure required for the system to work and be expanded in the future. GALUSHA TECH LLC offers quality solar power systems and products geared for your location to reduce or eliminate your electric bill at a great price! Safe, cost effective and reliable. Renewable Energy Tax Credit of 30% possible. For more information call Sven at
or get a free quote on our website www.galushasolar.com.
