QR Code Link to This Post Belgian Malinois and Malinois mixes are ending up in local shelters because of irresponsible people who do NOT care about their dogs breeding and selling them. Do your research before getting this breed. The crazy high energy destructive phase that most puppies go through - Malinois can be that way for life and even with training and exercise do not usually "grow out of" that behavior like other breeds of dog. They often do NOT do well as a family dog. Help save lives and keep dogs out of shelters by NOT supporting people breeding and selling dogs of any breed on craig's list. Good breeders that care about their dogs never sell their puppies on craig's list.
