Long Distance

Moving long distance is something different than moving to your neighborhood in the same city. This is because not all movers handle long distance moves and while you are looking for one you should make sure that the long distance movers have previously visited that city and also have the interstate permit to avoid any problems during the transit.

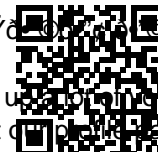

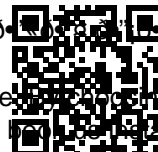

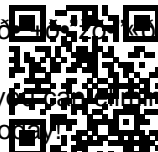

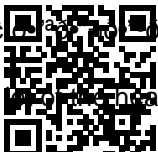

Protecting your belongings is as important to us as it is to you; that's we provide Full-Value Protection with every move we service. Full-Value Protection is a plan that protects you if the unexpected happens.
