QR Code Link to This Post No oxidizing of the paint and not a single rip in the interior. 238k miles but in much better shape than most others on the market. Body is straight with no dents dings or major scratches. No check engine lights. Brand New Firestone Tires installed only a few weeks ago. Kbb is 3k in excellent condition which it is so I'm negotiable but not going to give the car away. Yes there's many for 3 to 5k but keep in mind low mileage isn't a representation of how well it's been kept. If I don't receive a reasonable offer then I don't mind keeping it running! It's a pleasure to.
