QR Code Link to This Post Are you taking a psychology class or are a psych major? Would love to pick your brain for about 30 minutes for a study I'm doing. \$30 cash for your time. I'll be looking for several people for this from various age brackets.

If interested please respond with some something about you including:

- Age
- Male or Female
- What Part of Town You are In (I can't support Maryland or DC for this)
- Currently in School?

Thank
