QR Code Link to This Post I would like to borrow \$2,400,000 for 5 years at 15% APR to expand the wireless construction company I started in 1997. Our work is primarily with cell phone companies but also work with utility, public safety, and broadcast entities. The money would be used to expand inventory/equipment and consolidate debt. I started this company with very little cash which has made for a lot of touch and go the last 20 years of constant growth. More opportunity awaits then we can get our arms around for at least the next 5 -10 years, looking for a boost to better take advantage of it. We are projecting sales of \$7 million this year and did 5.5 last year.

Once the company is running smoother and more profitably with this additional capital, the bigger vision is a reality show that will bear much eternal fruit. Not a necessity but would be nice to find an individual who shares that passion. If this sounds like a possible fit, let's talk.

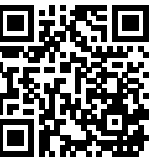

And by faith even Sarah, who was past childbearing age, was enabled to bear children because she considered him faithful who had made the promise. Hebrews 11
