QR Code Link to This Post Experienced writer and MIT grad offers editing/writing services for academics, attorneys, and business professionals. I hold the CPA Certificate of Examination.

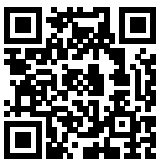

Besides editing material that is part of a client's employment responsibilities, I have written grant proposals and ghostwritten books. I have also assisted in the requirements for obtaining online degrees and in the preparation of academic dissertations.

Samples of my writing (excepting any material written for clients) is available on request, including a travel guide to Montreal which is also available online.

Excellent references.

Very quick turnaround.

Matt
