QR Code Link to This Post I'm selling an old and used Black & Decker corded power drill. A relative gave it to me and he received it from his job's maintenance man. It was used frequently in the past. I used it for household jobs. I'm selling it because I purchased a new drill. This drill still works. The pictures show wear and tear on the housing but the motor and bit work. I'm also including a chuck and a copy of the manual which is available online. This is a 3/8 inch and 2 amp drill. It works on 120 volts with a 1200 rpm motor. Add 13 inches for the cord to the 7 inches in the dimensions box.
