QR Code Link to This Post There have not been any real tax cuts in many years, and the economy is humming along.

There exist NO EVIDENCE that tax cuts work to create a better economy. You Cons are still living in the LIE that your dead and decayed old fart told you decades ago.

Post some real PROOF that tax cuts really spur the economy.,

P.S, Don't forget that we have had tax cuts and more tax cuts and still, until now, had not had the RICH PEOPLE with all their newfound Millions, create all those jobs that you have been led to believe would come. They Rich have just gotten far richer with the tax cuts and the working people have had their wages stagnate for a couple decades.

You really are a bunch of dumb fucks still believing that ole Republican Lie that tax cuts will create more jobs.

How fucking stupid can you be?>?

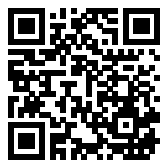

Where is the Proof of your still lame claim? Why don't you ever post your???????
