QR Code Link to This Post I had some serious health issues that cost me my job. I got my pup Valentine not too long ago actually right before my health problem struck . He is a very sweet and loyal pup (7 months) that's been through hell before being rescued. His weight was low and he was very jumpy as if he has been beaten. He has warmed up nicely and become our best bud!

I'm a single mom and Valentine is very important to us. Problem is I need help right now because I don't want to give him up. I believe he needs to be dewormed because he eats like crazy but no weight gain. I was able to buy him a flea collar but he is still scratching. Any donations would be appreciated even other items you may have.(bed,food, toys) If your not comfortable giving money I for sure get that! Maybe donate the meds/items instead? I'm totally fine with that.

I see alot of ads where people are giving up their pets. I'm trying to keep mine just getting over a hurdle right now is all. He has been through enough rehoming him again would not be good for him.

Thanks for reading!
