I am PRINCE GEORGE COUNTY LICENSED and food program is available. This is a pet free & non-smoking environment, and I have also taken CPR/FIRST AID classes. So don't worry, I assure you your child will be safe here every minute they are here! There is constant attention and watch on the children so they are NEVER left alone. I have 2 wonderful children of my own, so I have lots of experience with my own kids as well. The children are exposed to many diverse backgrounds, and I also teach the children their basics such as ABC's, 123's and colors, along with worldly things such as reading, art, music, and manners. AZMAT's Daycare is located in a very safe and friendly neighborhood. I assure you, you will love this daycare. A lot of parents especially, first time parents, start at azmat's daycare when their child is a newborn and love the Daycare so much that they're child leaves only when they have to start elementary school! so trust me i will give them the best love and attention possible please give me a chance you can contact me on
