QR Code Link to This Post 21 y/o guitarist looking for a band to play with, willing to form something up or fill a spot in your band. Mainly interested in indie rock / garage rock / dream pop type stuff, but I'm really just looking to play out and maybe write some cool shit. Main influences are the strokes, metric, cage the elephant, weezer, daft punk, twin peaks, tame impala, DFA1979, arctic monkeys. I've been playing for ~3 years and I can do some solid rhythm guitar / some lead stuff, but have never really played with others. I have some rudimentary production / tracking experience in ableton as well.

I live on the northwest side - jefferson park / edgebrook area.

Hit me up with some info about yourself / music taste or if you have any questions about me.
