QR Code Link to This Post This girl's a beaut. I truly hate that I'm even considering getting rid of her.

V6 / 2F / 4.2l / 4 Speed

Not only my favorite Toyota so far, but my favorite vehicle ever. I absolutely love this FJ60 and can't tell you how many looks and compliments I get daily. I bought her 2.5 years ago from a friend I've known for 25 years who manages a well-known, respected auto shop. He put a lot of time and money into it, as did I and I have truly maintained and babied it since my acquirement. That being said, I've never taken it off-roading, not even close. I know that's what they're made for but she's too much of a beaut. As my only vehicle it's my daily driver and has never failed me. She even runs smooth at 70mph. No rust on body or undercarriage, no cracks on the dash. Original clean interior (thorough cleanings every couple weeks and interior professionally shampooed every couple months) with normal wear on left side of driver's seat. I had a new Weber Carb put in it a year into having it, giving it much better gas mileage. New smog air pump, v-belt, air injection reactor pump belt, driver's side door linkage. Regular maintenance (oil changes, tune-ups). My mechanic just did a 22 point inspection and everything looks good. I have all paperwork of services since my ownership. The tailgate along with the bumper has a dent on the right. Tranny is solid as well as 4WD. Small crack in upper right part of windshield. Heater blows hot, AC not cold but I'm in the Northwest so it was never a concern for me. High miles but it is a Toyota after all. Clean title in hand. Tags good til 3/19. I can't stand the thought of getting rid of her but I need a camper van to get out of this NW cold for the winter. Really though, you gotta meet Phyllis.

Entertaining reasonable offers for cash and/or camper van trades. Don't low ball me. Don't send me emails with links to your 'other email address' trying to scam me.
